

Integrate SAP Concur Expense and Deltek™ Costpoint with Sand Connector

Leverage Concur and Deltek Web Service Integration to See the Complete Picture

Control your finances with end-to-end, automated data synchronization between SAP Concur Expense and Deltek Costpoint. Integrating Concur with your Costpoint means you can accurately and with minimal effort manage expenses to get a complete view of your finances in one place.

Sand Connector automates and connects the reimbursement and posting process — from loading expenses to A/P vouchers and synchronizing lists — right into Concur and Costpoint. The direct data exchange between these systems enable you to accurately post expense data in your financial system, reimburse your employees faster and free up your employees for more important initiatives.

Our integration uses REST/SOAP web services and OAuth2

Seamless Data Integration Between Concur Expense and Deltek Costpoint Gives You End-to-End Visibility of All Your Spending in a Timely, Near Real-Time Environment

Accurate Financial Postings

In a Near Real-Time Environment

Near real-time data synchronization of **Expenses** and **Lists*** between systems means no manual interaction required and employees can get reimbursed faster.

A Secure Solution

For Moving To The Cloud

Advanced token based authentication provides for a secure, encrypted, and connected solution in a compliant and secure integration using **REST/SOAP Web Services**.

Actionable Insights

In a Connected System

Concur Expense integration with Deltek Costpoint brings complete visibility and reporting across all channels of employee spending in a single system ... **yours**.

* Add-on features such as the ability to synchronize Users are available on a case-by-case basis.

Deltek Costpoint Integration With Concur Expense Standard or Professional Editions

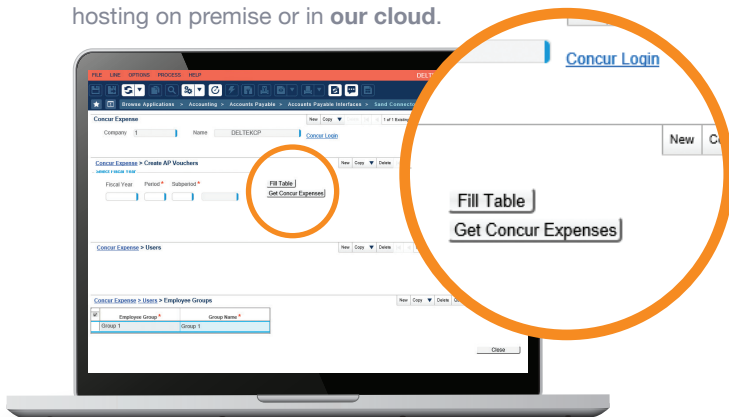

Sand Connector eliminates manual data entry across multiple systems and the delays of manual exporting. Resulting in a quick, simple and accurate way to process expense transactions in Concur; plus, quick and easy posting of financial transactions and faster payments in Costpoint.

- ▶ Eliminate manual non-compliant processes — including file uploads and downloads.
- ▶ Minimize risk of posting errors using automation — keeping master data in either systems in sync.
- ▶ Direct integration with Costpoint creates accurate data integrations for faster reimbursements.
- ▶ Eliminate the need for custom middleware and reduce system complexity using Costpoint Extensibility.
- ▶ Flexible mapping and conversion to support customer-specific integration use cases.

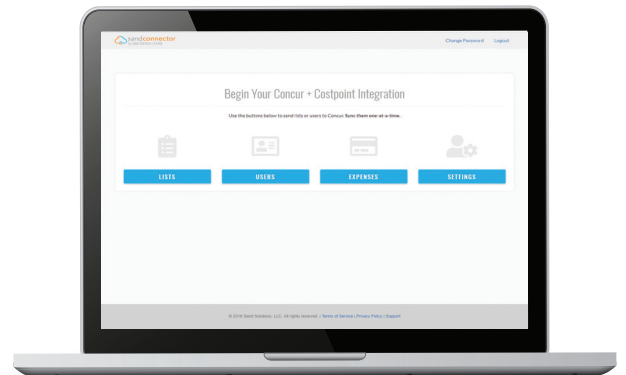

Our Integration Works Regardless of Where You Are Hosting Costpoint

For customers **hosting with Sand Solutions** or on premise, we offer screen customization leveraging Costpoint; while **customers in 3rd-party or the Deltek cloud** can benefit from our secure online web app using web services and advanced token based authentication.

Costpoint Extensibility is an option for customers hosting on premise or in **our cloud**.

For customers hosting in the Deltek or 3rd-party cloud, we offer secure online web-app leveraging multi-factor authentication.
