

Integrate Concur Expense and Deltek™ Costpoint with Sand Connector

Leverage Concur and Deltek Web Service Integration to See the Complete Picture

Control your finances with end-to-end, automated data synchronization between Concur and your Costpoint financial application. Integrating Concur Expense with your Deltek Costpoint application means you can accurately and with minimal effort manage expenses to get a complete view of your finances in one place.

Sand Connector automates and connects the reimbursement and posting process — from loading expenses to A/P vouchers, synchronizing lists and users — right into your Concur and Costpoint systems. The direct data exchange between these systems enable you to accurately post Concur Expense data in your Costpoint financial system, reimburse your employees faster and free up your employees for more important initiatives.

Seamless Data Integration Between Concur Expense and Deltek Costpoint Gives You End-to-End Visibility of All Your Spending in a Timely, Near Real-Time Environment

Accurate Financial Postings

Near real-time data synchronization of **Expenses**, **Lists** and **Users** between systems means no manual interaction required and your organization can reimburse employees faster.

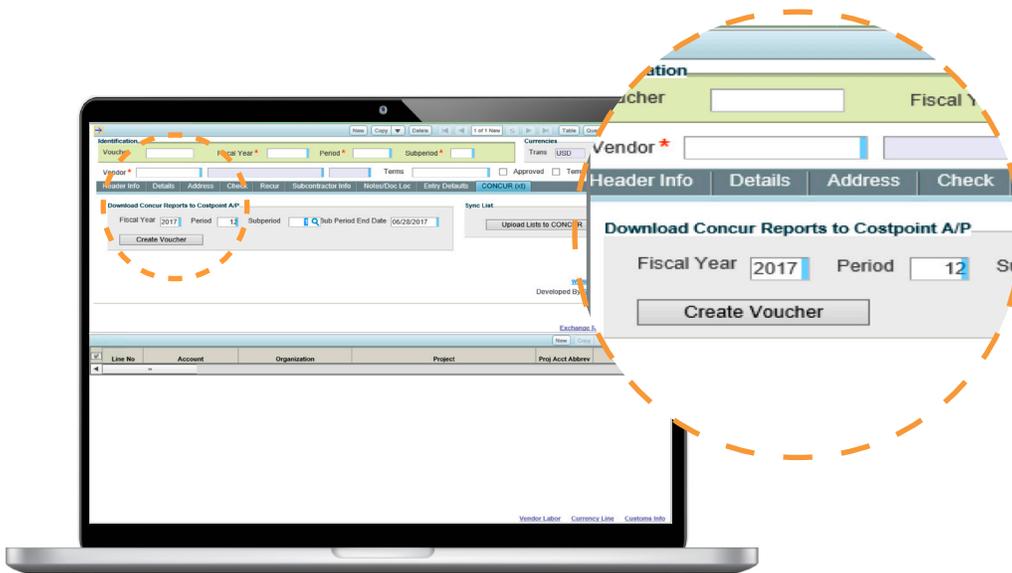

A Secure Solution For Moving To The Cloud

OAuth2 token based authentication provides for a secure, encrypted, and connected solution in a compliant and secure integration using Web Services.

Actionable Insights In a Connected System

Concur Expense along with your Costpoint system brings complete visibility and reporting across all channels of employee spend in a single system ... yours.

Automatically creates vouchers to previously approved expenses

Costpoint Integration With Concur Expense Standard or Professional Editions

Sand Connector eliminates manual data entry across multiple systems and the delays of manual exporting. This gives you a quick, simple and accurate way to process expense transactions in Costpoint; plus, quick and easy posting of financial transactions and faster payments in your Costpoint ERP system.

- › Eliminate manual non-compliant processes — including file uploads and downloads.
- › Minimize risk of posting errors by automation — keeping master data in both systems in sync.
- › Direct integration with Costpoint ERP system creates accurate data integrations for faster reimbursements.
- › Reduce the need for middleware to reduce system complexity using Costpoint Extensibility.
- › Flexible mapping and conversion to support customer-specific integration use cases.
