# Sand Connector for Invoice & Expense
Deltek Costpoint Integration

Leverage the Power of Deltek Costpoint through Sand Connector's Web Service Integration

https://**my.sandconnector.com**

Your Software · User Interaction

With Sand Connector, you can control your finances with end-to-end data synchronization between Deltek Costpoint and Concur. Integrating Costpoint through Sand Connector means you can accurately, and with minimal effort, manage the invoice and expense process to get a complete view of your finances in one place.

Sand Connector automates and connects the reimbursement and posting process between Costpoint and your Concur. The direct data exchange between these systems enables you to post expense or invoice data in your financial system accurately and issue reimbursements faster, freeing up your employees for more important initiatives.

Seamless Data Integration Gives You End-to-End Visibility of All Your Spending in a Timely, Near Real-Time Environment

Accurate Financial Postings
In a Near Real-Time Environment

Synchronization of **Invoice** and **Expense** between systems means minimal interaction required and faster reimbursements through AP or PO Vouchers.

A Secure Solution
For Moving To The Cloud

OAuth2 Token authentication, combined with **our 2FA**, provides a secure, encrypted, and connected solution in a compliant and secure integration.

Actionable Insights
In a Connected System

Complete integration of your financial systems brings visibility and reporting across all channels of organizational spending into a single system ... **yours**.

* Add-on features to synchronize additional screens or fields are available on a case-by-case basis.

Deltek Costpoint Integration Benefits

Sand Connector eliminates manual data entry across multiple systems and the delays of manual exporting. Resulting in a quick, simple and accurate way to process transactions; plus, quick and easy posting of financial transactions and faster payments.

- ‣ Eliminate manual non-compliant processes — including file uploads and downloads.
- ‣ Eliminate custom middleware and reduce system complexity.
- ‣ Minimize risk of posting errors using automation — keeping basic data in either system in sync.
- ‣ Direct Expense integration creates an accurate view across: Users, Lists, and Expense Reports.
- ‣ Direct Invoice integration creates an accurate view across: Users, Lists, Purchase Orders, Receipts, and Invoices.
- ‣ Flexible mapping and conversion to support customer-specific integration use cases.

* Add-on features to synchronize additional screens or fields are available on a case-by-case basis.
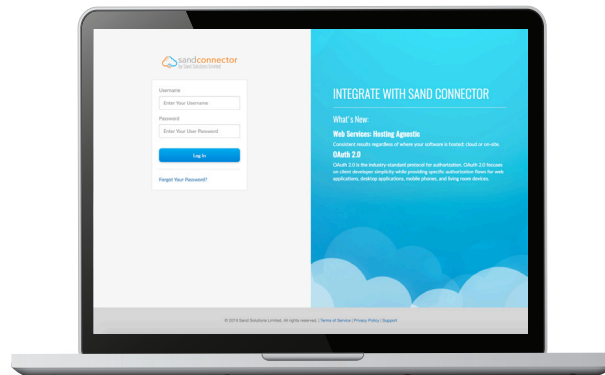

Our Integration Works Regardless of Where You Are Hosting Costpoint

For customers **hosting with Sand Solutions** or on premise, we offer screen customizations leveraging Costpoint integration capabilities; while **customers in the Deltek cloud** can benefit from our secure online web app using web services and advanced token based authentication.

Required for your Deltek Costpoint Integration

CP 7.1.1 or above and latest System packs with corresponding active Deltek Customer Care agreement.

We provide a secure online web-app leveraging multi-factor authentication.

With over **20 years of software development experience**, Sand Solutions is one of the leaders in integrations today.
